# 01 Remodeling in Casa del Jardín I

We are so thankful for our volunteers who helped us replace the flooring in our school area. This will allow our children to take their classes in a more dignified and hygienic area. We thank our volunteers for their continued support!

Change of carpets in the school area of Casa del Jardín I.

## 02 New hygiene protocol

Due to the pandemic, we implemented a health safety protocol. We provide our team with masks, antibacterial gel, and digital thermometers to ensure the safety of our children and staff. We recognize that it takes all of us working together to be able to keep our children safe and moving forward in their efforts toward healing.

New hygiene protocol.

# 03 Installation of new security cameras

In an effort to continue providing for the safety of our children and employees, we installed new and improved security cameras in the Casa Jardín. We are always looking for the best options for providing a safe and secure environment in which our children can grow!

Installation of new security cameras.

## La Casa del Jardín

# 01 Bachelor's degree graduation

We are very proud that one of our young women successfully graduated with a Bachelor's Degree in Business Administration. Thanks to the close relationship between Red Binacional de Corazones and universities in the region, she received a full ride scholarship. She has now been hired by an import/export company in Tijuana, BC.

This great achievement fulfills one of our greatest objectives; the healthy reintegration of survivors into society. Though she is living independently, she still considers Casa del Jardín to be her family and visits often to continue mentoring the children living there. We are not only proud, but thankful for her investment back into the lives of the children going through what she endured herself.

Bachelor's degree graduation.

## 02 Visit to Parque de la Amistad

The Convention of the Rights of the Child establishes in article 31 that recreation and play are rights of every child. We strive to ensure that the rights of our children are fulfilled to the best of our ability. On this occasion the children of Casa del Jardin, had a full day of fun at the Parque de la Amistad, Tijuana B.C. Seeing them be able to run and play freely was an absolute joy!

Visit to El parque de la amistad.

# 03 Harvest in orchard garden

At the Casa del Jardín, our girls are growing their own vegetables organically. This is thanks to the 3 hydroponic towers that allow them to harvest fresh vegetables such as lettuce, spinach, parsley, etc. This practice teaches our girls the importance of a healthy diet as well as the maintenance and care of harvesting.

Harvest in orchard garden.

## 04 Dental and orthodontic care

Access to healthcare is a fundamental right that every child should enjoy. That is why at Casa del Jardin we take on the task of managing services such as dental and orthodontic care. Thanks to our donors we are able to provide such care!

Dental and orthodontic care.
